Dear Baha,

Thank you very much for providing me with a summary feedback report on the workshop that you recently held for our employees at Med-Emerg Inc.

I was extremely pleased at the outcome of this session, having heard many positive comments from my staff about how useful they found your strategies on prioritizing and managing their time.

I would highly recommend your program to anyone interested in helping their team manage the information overload that we are faced with in our day to day activities. I wish you success in your business and would be pleased to provide a reference to anyone requiring more detailed information about the benefits obtained during our session.

Yours truly,

Donald Ross
Vice President, Operations
