Dear Baha and Margie:

I wanted to send you a few lines to thank you for your work with us here at The Peoples Church. The insights you have shared with us have had a significant impact on our productivity. You have also challenged us to simplify our work and that too has led to many very interesting and beneficial discussions among those who attended your workshop.

On a personal note I have implemented many of the ideas you both shared with me and have 'found' time that wasn't previously there because of these changes.

I would encourage others in leadership in Christian ministries to make their way to one of your workshops as quickly as they can. Significant improvements await them if they do.

Sincerely yours in Christ,

Brian Dawkins
Business Manager
